

# PIONEERS IN BIOMEDICAL RESEARCH SEMINAR

Presented by the Fralin Biomedical Research Institute and co-sponsored by the institute's Center for Human Neuroscience Research

## *Disability Identity, Inclusivity & Representation in Research*

This talk will highlight the importance of disability inclusivity and representation in all aspects of research. Disability should not be an afterthought and can strengthen research. Dr. Forber-Pratt will discuss key aspects of disability from an equity framework, including disability identity development, intersectionality, and designing research with intentionality.
