PIONEERS IN BIOMEDICAL RESEARCH SEMINAR

Presented by the Fralin Biomedical Research Institute at VTC and co-sponsored by the institute's Center for Vascular and Heart Research

RONG TIAN, M.D., Ph.D.

Professor
Department of Anesthesiology and Bioengineering
University of Washington

The Relationship Between Mitochondrial Function and Heart Failure

The lecture will summarize the current knowledge of mitochondrial/metabolic remodeling in heart failure. Dr. Tian will discuss the role of mitochondrial dysfunction — pertaining to bioenergetics and beyond — in the development of heart failure. Specifically, recent findings of mitochondrial biogenesis and quality control in heart failure with reduced or preserved ejection fraction (HFrEF or HFpEF) will be presented.

FRIDAY, FEB. 28, at 11 a.m.

Room G101 A/B, 4 Riverside Circle Watch live via Zoom at https://FralinBioMed.info/PBR-Join
