PIONEERS IN BIOMEDICAL RESEARCH SEMINAR

Presented by the Fralin Biomedical Research Institute at VTC and co-sponsored by the institute's Cancer Research Group

WILLIAM EWARD, M.D., DVM

Frank H. Bassett Associate Professor of Orthopaedic Surgery Chief, Section of Orthopaedic Surgery Department of Orthopaedic Surgery and Duke Cancer Institute Duke University

Comparative Oncology, Animal Stories, and Creativity in Sarcoma Surgery

This talk will explore the nature of cancer across the tree of life and describe the comparative oncology pipeline at Duke University. Dr. Eward will explain the cross-species analysis of sarcoma and the resultant understanding about the role of ATRX gene loss in the biology of sarcoma. In a talk that covers a number of topics, there will also be a series of cases in human cancer patients showcasing a variety of creative technical approaches to challenges in sarcoma surgery.

FRIDAY, JUNE 7, at 11:00 a.m.

Room G101 A/B, 4 Riverside Circle
