

PIONEERS IN BIOMEDICAL RESEARCH SEMINAR

Presented by the Fralin Biomedical Research Institute at VTC and co-sponsored by the institute's Cancer Research Group

LUIS PARADA, Ph.D.

Director

Brain Tumor Center

Albert C. Foster Chair

American Cancer Society Research Professor

Cell and Developmental Biology

Weill Cornell Graduate School of Medical Sciences

In Person Seminar: Understanding Glioma Heterogeneity Hierarchy

Advances in single cell genomics have guided investigation into glioblastoma. Many studies have highlighted the complex heterogeneity of the tumor as well as its microenvironment. Dr. Parada's lab has placed emphasis on functional heterogeneity. He will discuss his team's most recent findings and evaluate the hierarchical nature of GBM.

FRIDAY, MARCH 1, at 11:00 a.m.

Conference Auditorium, Children's National Research and Innovation Campus, Washington, D.C.
