

RESEARCH IN PROGRESS SEMINAR

Presented by the Fralin Biomedical Research Institute at VTC

Mona Safari

Impact of KCNT1 R428Q Mutation on Neuronal Subtype Excitability in a Mouse Model

Etta Hanlon

Uncharacterized MYH9 Germline Mutations in a Microcystic Adnexal Carcinoma Mimicker: Benign Deep Syringoid Ductal Proliferation (BDSDP) with Elastic Fiber Aggregation

MONA SAFARI

Graduate Student, Translational Biology, Medicine, and Health
Weston Lab
Fralin Biomedical Research Institute at VTC

ETTA HANLON

Medical Student, Virginia Tech Carilion School of Medicine
Finkelstein Lab
Fralin Biomedical Research Institute at VTC

TUESDAY, OCT. 28, at 4:00 p.m.

Room G101 A/B, 4 Riverside Circle

FRALIN BIOMEDICAL
RESEARCH INSTITUTE AT VTC
VIRGINIA TECH.
