

PIONEERS IN BIOMEDICAL RESEARCH SEMINAR

Presented by the Fralin Biomedical Research Institute at VTC and co-sponsored by the institute's Center for Human Neuroscience Research

HOLLIS CLINE, Ph.D.

Hahn Professor and Chair
Department of Neuroscience
Scripps Research Institute

In Person Seminar: Exosome-mediated Protein Inter-cellular Transport in the Healthy Brain and Neurological Disease

Exosome-mediated protein transport between brain cells is an underappreciated mechanism of intercellular communication. Dr. Cline will describe her lab's recent and ongoing studies investigating the exosome-mediated intercellular signaling in the healthy brain and in neurological disease.

FRIDAY, SEPT. 30 at 11 a.m.

Room G101 A/B, 4 Riverside Circle

Watch live via Zoom at <https://FralinBioMed.info/PBR-Join>
