

PIONEERS IN BIOMEDICAL RESEARCH SEMINAR

Presented by the Fralin Biomedical Research Institute at VTC, and co-sponsored by the institute's Center for Neurobiology Research

In Person Seminar: Ethnicity-Informed Considerations in Addiction Medicine and Neuropsychiatry

In the age of Precision Medicine, effective therapy will require careful considerations for individual genetic variations along with PsychoSocioEconomic conditions that confer susceptibility or resilience to certain disease states. In her talk, Dr. Gondré-Lewis will explore the prevalence of specific addiction risk alleles and how they differ among different populations to impact choice of treatment.

MARJORIE GONDRÉ-LEWIS, Ph.D.

Professor

Department of Anatomy

Howard University College of Medicine

FRIDAY, MAY 5, at 11 a.m.

Room R3012, 2 Riverside Circle, or watch via Zoom at <https://fralinbiomed.info/PBR-Join>
