

PIONEERS IN BIOMEDICAL RESEARCH SEMINAR

Presented by the Fralin Biomedical Research Institute at VTC and co-sponsored by the institute's Center for Human Neuroscience Research

JONATHAN JACKSON, Ph.D.

Assistant Professor of Neuroscience and Psychiatry
Harvard Medical School
Executive Director
Community Access, Recruitment, and Engagement
(CARE) Research Center
Massachusetts General Hospital

Virtual Seminar: Quantifying Diverse Research Representation

In recent years, it has become clear that clinical research participation is more accessible to some populations relative to others. Dr. Jackson's lecture will provide the audience with an overview of inequities and barriers for clinical trial recruitment. The presentation will describe current research in recruitment and representation science, including testable frameworks for future research, as well as what investigators and study teams can do to minimize barriers to inclusive, representative research recruitment.

FRIDAY, MARCH 31, at 11 a.m.

Watch via Zoom at <https://FralinBioMed.info/PBR-Join>
