

# PIONEERS IN BIOMEDICAL RESEARCH SEMINAR

Presented by the Fralin Biomedical Research Institute and co-sponsored by the research institute's Addiction Recovery Research Center and the Center for Transformative Research on Health Behaviors

ADAM MATHEW LEVENTHAL, Ph.D.

Professor  
Department of Preventive Medicine  
Keck School of Medicine of USC

Department of Psychology  
Dana and David Dornsife College of Letters, Arts and Sciences  
University of Southern California

## *Effect of Contemporary Societal Exposures on Adolescent Behavioral Health*

Instagram, legal cannabis, e-cigarettes, and the proposal for a wall along the U.S.-Mexico Border. These are examples of historically unprecedented issues which the current generation of youth are routinely exposed to. Dr. Leventhal's talk will review the results of observational studies addressing the prevalence, risk factors, and behavioral health consequences of the following contemporary exposures: modern digital media use, use of e-cigarettes and other tobacco products, use of novel cannabis products, and the perceptions that discrimination is increasing in society.

FRIDAY, MARCH 12 at 11:00 a.m.

This seminar will be presented via Zoom at <https://virginiatech.zoom.us/j/84516409600>
