

RESEARCH IN PROGRESS SEMINAR

Presented by the Fralin Biomedical Research Institute at VTC

Katy Pannoni, Ph.D.

Using Deep AI to Assess Layer-specific Diversity of Mitochondria Ultrastructure in the Hippocampus

Michael Klingener

Targeting the Extracellular cAMP Pathway in Idiopathic Pulmonary Fibrosis

MICHAEL KLINGENER

Medical Student

Virginia Tech Carilion School of Medicine

Sassi Lab

Fralin Biomedical Research Institute at VTC

KATY PANNONI, Ph.D.

Senior Research Associate

Farris Lab

Fralin Biomedical Research Institute at VTC

TUESDAY, APRIL 15, at 4 p.m.

Room G101 A/B, 4 Riverside Circle

FRALIN BIOMEDICAL
RESEARCH INSTITUTE AT VTC
VIRGINIA TECH.
