

MAURY STRAUSS DISTINGUISHED PUBLIC LECTURE

Presented by the Fralin Biomedical Research Institute at VTC

IRENE TRACEY, MA, D.Phil,
FRCA, FMedSci

Professor of Anesthetic Neuroscience in the Nuffield
Department of Clinical Neurosciences; Warden of
Merton College; and Pro-Vice Chancellor, at the
University of Oxford

Can We Ever Really 'See' Pain? Unravelling Pain's Mysteries with Neuroimaging

Dr. Tracey is a Professor of Anesthetic Neuroscience in the Nuffield Department of Clinical Neurosciences, Warden of Merton College, and the Pro-Vice Chancellor at the University of Oxford. In this public lecture, Dr. Tracey will describe how neuroimaging techniques are helping researchers understand pain.

THURSDAY, NOV. 19 at 5:30 p.m.

This virtual lecture will be webcast live at fbri.vtc.vt.edu/live-webcast. Attendees can also register through our website to access a Zoom link for this presentation.
